Dear Mr. Zanvar,

We would like to thank you for your efforts for the services of Performance testing of APT Plant and Waste Water Evaporation and Crystallization (WVEC) Plant at our company in Dai Tu, Thai Nguyen, Vietnam which were implemented from Sep 19 - Oct 24, 2015 and from Feb 26 - Mar 1, 2016 respectively.

At these two occasions, your company, Prashant Zanvar Consultancy Services, inspected all our manufacturing facilities, reviewed installations, production processes and analysed production of our APT Plant and WVEC Plant and issued final performance certificate.

You and your team showed a highly professional background and understanding about the plants inner workings so that you could provide useful and valuable services. All the assignments were completed within timeframe and feedbacks for any questions raised by our engineers were quickly resolved. Especially at WVEC plant testing there was on a very tight time schedule and deadline and you accomplished it with highest professionalism and responsibility.

We were and are very happy with your performance and do hope we'll have further mutual business in the coming years. You are always welcome at our plant!

Yours sincerely,

Kurt Hoelzl

GENERAL DIRECTOR
